BAD UI

Hackathon

ERROR 404
good design
not found

DEC 3–4, 2026

OPEN TO EVERY EXPERIENCE LEVEL

THE EVENT

What it is

A two-day hackathon where students design and build interfaces that are deliberately terrible and funny, inspired by r/BadUIBattles. The less usable it is, the better.

EXAMPLE 01

Enter your phone number

...with a slider from 0 to 9,999,999,999.

EXAMPLE 02

Pick your birthday

...on a slot machine.

EXAMPLE 03

Accept the terms

...with a checkbox that runs away.

FOR SPONSORS

Why sponsor

01

Foster the next generation of STEM students

With workshops for students who have no computer science experience, our hackathons are open to students of all levels and often serve as a way for students to get into STEM.

02

Get publicity

Your project will be shared with around 40 competitors, and shared on our school's news, which has an estimated 850 student viewers and 400 parent viewers. We'd love to share your product and message!

03

Tailored sponsorship

Let us know what you're looking for and what you can give. We're looking forward to support you to make sure sponsors benefit just as much from the partnership as we do.

THE DETAILS

At a glance

DATES **Dec 3–4, 2026**	LOCATION **Pittsford, NY**	ESTIMATED VIEWERS **1250**
EXPECTED HACKERS **40**	EXPERIENCE **All levels**	HOSTED BY **SHS Computer Science Club**

Optionally have custom events in your name	—	—	✓	?
Other perks (let's talk!)	✓	✓	✓	✓

SUPPORT

What will your support be used for?

Food and drinks

Cover a meal or the snacks that keep teams going.

Prizes

Gift cards, tech, and food for the winners. Provide prizes directly or through a sponsorship tier.

Swag

Swag for participants. Partners are welcome to supply swag (e.g., stickers with your logo).

Custom

Want something at our hackathon that's not already there? Let's work together!

Something else in mind? We're happy to put together a custom package.
